MEMORANDUM

SUBJECT: Intent to Terminate RCRA Interim Status

FROM: Robert L. Morby, Chief, WMBR

TO: David Wagoner, Director, ARWM

Attached is the Notice of Intent to Terminate Interim Status for Sporlan Valve Company, St. Louis, Missouri. Also attached are the Statement of Basis, Public Notice for Newspaper, and Public Notice for Radio Broadcast. The notices have been cleared through the Public Affairs Office. The following statements apply to this package:

- The Statement of Basis provides a chronology of events leading to this action.
- The facility has been contacted regarding the proposed action. The state has concurred. No known controversy exists with regard to this proposed action.
- We recommend that procedures to terminate RCRA interim status be implemented for Sporlan Valve Company. The following schedule of events has been developed:

January 2, 1985	Publication of Public Notice
January 2, 1985	Beginning of Public Comment Period
February 15, 1985	End of Public Comment Period

If you concur with these actions, please sign the Notice of Intent to Terminate Interim Status and the cover letter to the applicant by December 21, 1984. Betti Harris may be contacted for additional information at extension 6534. We will be happy to meet with you, if you have any questions or comments.

NOTICE OF INTENT TO TERMINATE RCRA

INTERIM STATUS

Under the Resource Conservation and Recovery Act (RCRA), all facilities which treat, store, or dispose of hazardous waste must have a permit to operate. Those hazardous waste management facilities in operation on November 19, 1980, were allowed to continue in operation until a permit could be issued if certain conditions were met. This type of continued operation is known as "interim status." Sporlan Valve Company, St. Louis, Missouri is an interim status facility that has requested termination of its interim status. The facility has indicated that it does not treat, store, or dispose of hazardous waste. Sporlan Valve Company has completed the administrative procedures necessary for termination of interim status. Therefore, the United States Environmental Protection Agency, Region VII, Kansas City, Missouri, today announces its intent to terminate interim status for Sporlan Valve Company, St. Louis, Missouri. This is a type of permit action subject to the procedures found at Title 40 Code of Federal Regulations (40 CFR) Parts 124 and 270.

Sporlan Valve Company has submitted, and the Missouri Department of Natural Resources has approved, the closure plan for the St. Louis facility.

A copy of this Notice and the administrative record, including all pertinent information submitted by Sporlan Valve Company, will be available for public review beginning on January 2, 1985, and ending on February 15, 1985. Public comment is invited on the intended action to terminate interim status.

The Public Notice attached to this document specifies the locations of the administrative record for public review and provides information on the public comment procedure.

### STATEMENT OF BASIS

All facilities which treat, store, or dispose of hazardous waste must have a permit to operate. A facility could obtain interim status if it was treating, storing, or disposing hazardous waste prior to November 19, 1980. Interim status grants the facility additional time to prepare and submit a complete permit application. Interim status provides for two stages in the permitting process. A Notification initiates the first stage. The subsequent Part A application fulfills the requirements to obtain interim status. The second stage requires the submittal of a Part B application. Sporlan Valve Company of Missouri has chosen not to submit the Part B Hazardous Waste Permit application required by the Resource Conservation Recovery Act (RCRA). Federal regulations require that a complete Part B application be submitted or a facility's interim status may be terminated. Therefore, the United States Environmental Protection Agency, Region VII, Kansas City, Missouri, announces its intent to terminate interim status for the facility. This is a type of permit action subject to procedures applicable to interim status as set forth in Title 40 Code of Federal Regulations (40 CFR) Parts 124 and 270. This announcement of an intent to terminate RCRA interim status is based on the following information:

- The facility was "in existence" on November 19, 1980, as required by Section 3005 of RCRA.
- The facility complied with the notification requirements of Section 3010(a) of RCRA.
- The facility submitted a RCRA Part A Hazardous Waste permit application as required by Section 3005 of RCRA.
- Therefore, the facility achieved interim status.
- Sporlan Valve Company submitted a letter to EPA dated June 8, 1982, in which the facility stated that it would not submit a Part B application and requested termination of interim status.
- The facility has submitted a closure plan.
- Missouri Department of Natural Resources has tentatively approved this closure plan.

- The facility has waived its right to submit a closure plan up until 15 days following termination of interim status.
- Sporlan Valve Company did not submit a Part B Hazardous Waste Permit application.

The Public Notice attached to this document specifies the locations of the administrative record for public review and provides information on the public comment procedure.

PUBLIC NOTICE

UNDER THE RESOURCE CONSERVATION AND RECOVERY ACT (RCRA), ALL FACILITIES WHICH TREAT, STORE, OR DISPOSE OF HAZARDOUS WASTE MUST HAVE A PERMIT TO OPERATE. THOSE HAZARDOUS WASTE MANAGEMENT FACILITIES IN OPERATION ON NOVEMBER 19, 1980, WERE ALLOWED TO CONTINUE IN OPERATION UNTIL A PERMIT COULD BE ISSUED IF CERTAIN CONDITIONS WERE MET. THIS TYPE OF CONTINUED OPERATION IS KNOWN AS "INTERIM STATUS." SPORLAN VALVE COMPANY OF ST. LOUIS IS AN INTERIM STATUS FACILITY THAT HAS REQUESTED TERMINATION OF ITS INTERIM STATUS. THE FACILITY HAS INDICATED THAT IT DOES NOT TREAT, STORE, OR DISPOSE OF HAZARDOUS WASTE. SPORLAN VALVE COMPANY HAS COMPLETED THE ADMINISTRATIVE PROCEDURES NECESSARY FOR TERMINATION OF INTERIM STATUS. THEREFORE, THE UNITED STATES ENVIRONMENTAL PROTECTION AGENCY, REGION VII, KANSAS CITY, MISSOURI, TODAY ANNOUNCES ITS INTENT TO TERMINATE INTERIM STATUS FOR SPORLAN VALVE COMPANY. THIS IS A TYPE OF PERMIT ACTION SUBJECT TO THE PROCEDURES FOUND AT TITLE 40 CODE OF FEDERAL REGULATIONS (40 CFR) PARTS 124 AND 270.

Sporlan Valve Company, has been manufacturing refrigeration and air conditioning controls under interim status. On June 8, 1982, Sporlan Valve Company, requested withdrawal of the Part A application and termination of interim status in lieu of submittal of a Part B application. Public comment on the intended action to terminate interim status is invited.

A Notice of Intent to Terminate Interim Status is a type of permit action subject to procedures applicable to interim status as set forth in Title 40 Code of Federal Regulations (40 CFR) Parts 124 and 270 and is based upon an administrative record.

The administrative record consists of: the Notice of Intent to Terminate RCRA Interim Status; the Statement of Basis, which describes the reasons supporting the decision; and all pertinent data submitted by the facility.

The administrative record is available for public review beginning on January 2, 1985, between the hours of 8 a.m. and 4 p.m. Monday through Friday at: the EPA Region VII Library, 324 East Eleventh Street, Kansas City, Missouri; the Waste Management Program of the Missouri Department of Natural Resources, 117 East Dunklin Street, Jefferson City, Missouri, and the Missouri Department of Natural Resources Regional Office, 8460 Watson Road, St. Louis, Missouri.

The EPA has not scheduled a public hearing; however, if requests are received which indicate a significant degree of public interest in this Notice of Intent to Terminate Interim Status, a public hearing will be scheduled. Requests for a public hearing must be in writing to EPA and must state the nature of the issues proposed to be raised in the hearing. Such requests must be submitted by February 15, 1985. The public notice and public hearing procedures may be found in 40 CFR Sections 124.11 and 124.12.

Comments and requests for either additional information or a hearing should be directed in writing to Chet McLaughlin, Waste Management Branch, EPA Region VII, at the address listed above or by telephone at (816) 374-6534. Comments must be submitted by February 15, 1985.

After consideration of all comments received, EPA will make a final permit decision. If the determination is substantially unchanged from that announced by this Notice, EPA will notify all persons submitting written comments or requesting the Notice of Termination of Interim Status. If the determination is substantially changed from that announced by this Notice, a new Public Notice will be issued and the public participation process will be reopened.
